## NOTIFICATION OF FILMING IN YOUR AREA

Dear Neighbor,

CBS, Paramount+, and King Streets Productions will be filming Season 2 of the series *Marshals* in Summit County and the surrounding area from this spring through early winter. This is a notification to let you know that filming will be taking place near your property.

When filming, it will occasionally be necessary for us to park production vehicles close to our set, but we have coordinated with the local government and law enforcement to obtain all the necessary permits for such. You may also see an increase in pedestrian and vehicle traffic during our preparation and filming times. In order to maintain a safe environment for everyone involved, our film set will be closed to the public. Please refer to the attached map for information on any potential disruptions in your area so that you can plan accordingly.

### Filming is currently scheduled for:

- **8:00AM-5:00PM on TUESDAY, MAY 19TH**

### What to Expect:

- **Temporary intermittent traffic control and detour on Big Hollow Rd from the quarry to the Gun Club.**
- **Temporary intermittent traffic control (3-5 minute intervals) on 3000 South (between Daniels Road and 1000 West).**
- **WE WILL BE USING THE WASATCH COUNTY SHERIFF'S DEPT. TO CONTROL TRAFFIC.**

### **Businesses and residents will incur temporary delays while filming occurs.**

See the attached map for information on any traffic disruptions in your area so that you can plan accordingly and please contact me directly if you have any specific concerns about access.

We are working closely with **The City of Daniel, Wasatch County and the Utah Film Commission**, who feel the film industry is a valuable addition to the City and State, providing high level job opportunities with a low environmental impact. We greatly appreciate your discretion, consideration and assistance with our work.

Please contact me with any questions, concerns, or comments and I will do my best to address them.

Thank you for your time,

Joe Day  
Asst. Location Manager
